Discussion Questions

- How would you ask the sponsors to understand the quality and business of their community assessments?
- What are the strengths of the training plan? What opportunities do you see for improvement?
- Is there an aspect of the training plan that seems particularly important?
- What potential inputs, outputs, outcomes, and impact of the training plan would you advise the sponsors to discuss in their monitoring and evaluation plan as recommended by the sponsors?
- What additional activities would you suggest to ensure sustainability?
- What resources would you recommend for supporting the training plan?
- What would you recommend to do along with the training plan?
